CAREER OBJECTIVE

Frontend-focused Diploma Computer Engineering student with strong HTML/CSS skills and UI implementation practice. Built responsive pages, product-style layouts, and design-to-interface prototypes in Figma. Looking for a frontend internship to contribute clean, user-friendly interfaces.

EDUCATION

- Vivekanand Education Society's Polytechnic
Diploma in Computer Engineering (2nd Year, Sem IV), Expected May 2027
First Year Percentage: 85%

TECHNICAL SKILLS

- Programming Languages: C++, C, Java, Python
- Web: HTML, CSS
- Database: RDBMS, Oracle SQL
- Tools/Platforms: Figma, GitHub, Basic Linux
- Other: Basic 8086 ALP, UI/UX Design, Salesforce Trailhead (Expeditioner Rank)

PROJECTS

Universe: Space Information Website | HTML, CSS

- Designed and developed a responsive informational website about space as a complete solo project.
- Focused on clean layout, readability, and themed visual design.
- Link: <https://atharva-333.github.io/universe/>

E-Book Reader App Prototype | Figma (UI/UX)

- Created complete UI flow and interactive prototype for an e-book reader app.
- Designed user journey, reading interactions, and component-based layouts.
- Link: <https://bit.ly/4kqaG8Y>

SpaceX Store 1:1 UI Replica | Figma

- Recreated the SpaceX Store interface with high visual fidelity and interaction mapping.
- Strengthened pixel-level design consistency and component reuse.
- Link: <https://bit.ly/4rn7tKd>

CERTIFICATIONS

- Generative AI Mastermind — Outskill
- Freedom with AI Masterclass — Freedom with AI
- OOP in C++ — Infosys Springboard
- RDBMS — Infosys Springboard

INTERNSHIP PREFERENCES

- Preferred Location: Mumbai city, suburbs, and Thane district.
- Available to join from May (immediate in May).

LANGUAGES & INTERESTS

- Languages: Marathi, Hindi, English
- Interests: Reading books, writing programs, exploring new programming approaches, and integrating multiple languages.
